

COMMERCIAL & CUSTOM INTERMEDIATES

PCI specializes in the outsourcing of Commercial and Custom Intermediates. We develop and deliver these intermediates by working closely with your team in a spirit of partnership. We evolve efficient manufacturing strategies right from the laboratory scale to pilot plant and on to commercial production.

We offer in-house technological expertise to accelerate your efforts on outsourcing projects. Our unique ability to understand and match your specifications and regulatory requirements with that of the technological capabilities of our suppliers enables us to deliver the right product the first time itself.
